

IT 270 Module Four Practicing HTML Table and Form Concepts

You have just finished the “HTML Tables” section of the “HTML Fundamentals” module on Pluralsight.com—and hopefully followed along. These tutorials demonstrated how changes made to the index and CSS files affect the website content that is rendered in a browser window.

In this two part exercise, you will begin with the index.html file in the Mod4-Act1 folder and the index.html file in the Mod4-Act2 folder and add several additional pieces of content and styles, based on your watching and understanding of the first seven videos of the “Styling Your HTML” section of the “Front-End Web Development Quick Start with HTML5, CSS and JavaScript” module on Pluralsight.com.

Activity I

Step 1.

Download the [IT-270 Exercise Files Students zip](#) file if you have not already done so.

Step 2. For Part I of this activity,

open the **index.html** file in the Mod4-Act1 folder in Sublime Text by either using the File menu > Open File command in the program or by dragging the file from the folder window into the blank Sublime Text window.

Mon	Big Bang Theory	How I Met Your Mother	Two and a Half Men	Rules of Engagement	CSI: Miami	
Tue	NCIS		The Mentalist		Without A Trace	
Wed	New Adventures of Old Christine	Gary Unmarried	Criminal Minds		CSI: New York	
Thu	Survivor		CSI: Crime Scene Investigation		Eleventh Hour	
Fri	Ghost Whisperer		Flashpoint		Numb3rs	

Step 3. Construct a table that is seven cells across and six cells tall and that displays a CBS primetime TV listing from several years ago (as seen at right). This table should appear just after the second headline on the page.

Fri	Ghost Whisperer		Flashpoint		Numbe3rs

Step 4. Proof your work as you progress in a blank browser tab or window, and then again a final time before submitting your assignment. Your finished work should look like the figure at right. Ensure you save your work to the folder before continuing.

Activity II

Step 1. Next, you will add a form to this webpage file.

Step 2. For Part II of this Activity, open the **index.html** file in the Mod-4-Act2 folder in Sublime Text by either using the File menu > Open File command in the program or by dragging the file from the folder window into the blank Sublime Text window.

Step 3. Construct a form entitled “Keeping In Touch” that has three text fields to start—Full name, Email address, and Phone number—and a set of three radio buttons under the heading “How Often Do You Want to Hear from Us?” whose three radio button options are Daily Email, Weekly Email, and Monthly Email. Finally, include a Submit button for this form. This form should appear just after the second headline on the page.

Step 4. Proof your work as you progress in a blank browser tab or window, and then again a final time before submitting your assignment. Ensure you save your work to the folder before continuing. Your finished work should look like this:

Quod autem satis est, eo quicquid accessit, nimium est;

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Quid Zeno? [Duo Reges: constructio interrete](#). Ita ne hoc quidem modo paria peccata sunt. Ait enim se, si uratur, Quam hoc suavel dicturum.
